Berlin, Germany

PROFESSIONAL SUMMARY

M.Sc. Artificial Intelligence student at BTU Cottbus-Senftenberg with hands-on industry experience at Accenture and Infosys. Skilled in building LLM-powered applications, agentic systems, RAG pipelines and AI automation workflows using Python, LangChain, Claude API and OpenAI API. Strong data analytics background: ETL pipelines, statistical analysis, dashboards and stakeholder reporting. IEEE-published researcher with systematic ML evaluation and benchmarking experience. Available as Werkstudent in Berlin up to 20 hours per week.

EDUCATION

M.Sc. Artificial Intelligence Mar 2026 - Present

Brandenburg University of Technology (BTU) Cottbus-Senftenberg, Germany

Coursework: Machine Learning, Deep Learning, NLP, Data Analytics, Statistical Methods, AI Systems

B.E. Computer Science & Engineering (AI & ML) 2021 - 2025

M.H. Saboo Siddik College of Engineering, University of Mumbai, India

CGPA: 7.14 / 10 | Coursework: Machine Learning, AI, Computer Vision, Algorithms, DBMS

Higher Secondary Certificate (HSC) 2019 - 2021

Navneet College of Commerce, Arts & Science, Mumbai, India

Score: 89.6%

PROFESSIONAL EXPERIENCE

Data Analyst Jun 2025 - Dec 2025

Accenture Private Limited, Advanced Technology Dept., Pune, India

- Prepared analytical and trend reports, data visualisations and stakeholder-ready presentations to support business decisions across the Advanced Technology department.
- Preprocessed and analysed large volumes of structured and unstructured data to surface trends, patterns and actionable insights using Python and statistical methods.
- Identified business challenges in collaboration with stakeholders and provided data-driven analytics solutions; built dashboards using data visualisation tools.
- Collaborated with engineering and product development teams to integrate analytical findings into technical workflows.

Data Analyst Intern Jun 2024 - Oct 2024

Infosys Limited, Bangalore, India

- Built Python ETL pipelines integrated with AWS and Azure cloud services; automated data processing and validation workflows used in production by analytics teams.
- Designed Power BI and Tableau dashboards for real-time KPI monitoring; optimised SQL queries via indexing and partitioning on large datasets.
- Worked in agile sprint cycles with cross-functional engineering and business stakeholders.

Raspberry Pi Engineer Intern Feb 2024

MHSSCE Alumni Startup, Mumbai, India

- Built a complete IoT sensor data pipeline on Linux-based Raspberry Pi with Node-RED; configured hardware-software integration and automated data flows end-to-end.

RESEARCH PUBLICATION

Empowering Deaf Communication: A Deep Learning Framework for Mar 2025

Sign-to-Speech Translation

IEEE Xplore - ESCI 2025 - Co-Author

- Designed and deployed a multimodal AI pipeline: MediaPipe pose extraction, CNN (ResNet) and Vision Transformer (ViT) for classification, LSTM for temporal sequencing, NLP and TTS output. 91% accuracy on

- embedded Linux hardware.
- Built ground-truth annotation dataset and scoring rubric; benchmarked model performance systematically using precision, recall and F1-score across gesture classes.

PROJECTS

LLM Application with RAG and Knowledge Graphs - TEXTURA GitHub	2025
<i>Tech: Python, LangChain, Claude API, OpenAI API, RAG, Knowledge Graphs, REST APIs</i>	
• Built an LLM-powered agentic pipeline with RAG-based retrieval, knowledge graph integration and systematic output quality evaluation. • Iterated on prompt strategy and retrieval architecture until outputs were consistently reliable.	
Smart Glasses - Smart India Hackathon Finalist (Top 5) GitHub	Dec 2024 - Mar 2025
<i>Tech: Python, PyTorch, MediaPipe, CNN, ViT, LSTM, Raspberry Pi, TTS</i>	
• End-to-end AI system: problem definition, architecture, deployment on real hardware, Top 5 nationally.	
Credit Card Fraud Detection GitHub	2024
<i>Tech: Python, Scikit-learn, XGBoost, Pandas, NumPy</i>	
• ML classification pipeline with SMOTE, cross-validation and systematic evaluation using F1-score and AUC-ROC.	
Open Chatroom Web Application	2024
<i>Tech: React.js, Node.js, Firebase, REST APIs, TypeScript</i>	
• Full-stack real-time application built and shipped end-to-end.	

TECHNICAL SKILLS

AI & LLM	LangChain, RAG, Knowledge Graphs, Claude API, OpenAI API, Prompt Engineering, LLM Evaluation, Agentic Systems
ML & Research	Machine Learning, Deep Learning, NLP, Computer Vision, PyTorch, TensorFlow, Scikit-learn, XGBoost, MediaPipe, OpenCV
AI Tools	Claude Code, GitHub Copilot, Cursor, Cline
Programming	Python (primary), SQL, JavaScript, TypeScript, Java, C++, R, Bash
Data & BI	Pandas, NumPy, ETL Pipelines, Power BI, Tableau, Statistical Analysis, AWS, Azure, PostgreSQL, MySQL
Web & Infra	React.js, Node.js, Flask, FastAPI, Django, Firebase, Docker, Git, Linux, Jira, Confluence

LEADERSHIP & ACTIVITIES

• Chairperson - IEEE MHSSCE Student Chapter	2024 - 2025
• General Secretary - SACE Committee, MHSSCE	Jan - Jun 2025
• Social Media Head - IEEE MHSSCE Student Chapter	Mar - Dec 2023

LANGUAGES

English	C2 - Proficient (IELTS 8.5)
German	B2 - Upper Intermediate
Hindi	Native
Urdu	Native

ADDITIONAL INFORMATION

Availability	Werkstudent - up to 20 hrs/week, Berlin
Work Auth	Enrolled student in Germany - eligible to work as Werkstudent
